At the first examination of candidates for the next freshmen class in Harvard College which began on Saturday, 162 students presented themselves. The railroad bridge over the Missouri river

was completed last week, and trains are now running over it. The structure is 1,387 feet long, and it is about 22 feet above the river. The draw is 35 feet wide. An oil well on the Benedict Estate Company's property at Enterprise, Venango County, was torpedoed, last week, and the production increased from

30 to 85 barrels per day. A well at Scrubgrass, on the Allegheny River, was torpedoed on the previous Saturday, and yielded instead of 40, 110 barrels per day. A few days ago a fisherman residing on the Ogeechee canal, some ten or twelve miles from Savannah, Ga., seld his wife to another fisherman for 60 bunches of fish, valued at 50 cents per bunch. The wife was perfectly satisfied with the sale, and is now living with her purchaser.

A man named James Omerrord, an employee at the Hamilton Print Works, Lowell, Mass., was bitten through the nose a few evenings since by a rat. He bled profusely for nearly two hours. His hp was much swollen and his nose inflamed. Two or three evenings previous his child, six mounts old, was also bitten in the arm, inflicting a dangerous wound. Both father and child are recovering.

The Dutchess and Columbia Railroad Company propose to name their station in Fishkill "Fishkill pany propose to name their station in Fishkill "Fishkill Village," to which The Journal protests that there are Fishkills enough already. "Most of our neighboring villages," says The Journal, "aspire to be cities, and we ought to be as ambitious as they. Essides, this is the original Fishkill of Revolutionary fame, and people here and elsewhere have strong objections to obliterating, by a change of name (as would be necessary) a landmark of the history of the nation's birth."

Justice Provines of San Francisco has desided that Chinese testimony is not admissible in Court Several days ago a woman named Mary Jane Steele committed a common assault upon a Chinaman. The Chinamitted a common assault upon a Camanian. The cama-man, Ah Choo, took ont a warrant for her arrest, and on the day appointed for hearing the complaint in the Police Court, it was objected, in limine by defendant's coursel, that complainant, being a Chinamian, he had no learl ex-istence before a Cantornia judicature. The Justico de-cided as above, and dismis ed the defendant.

Mr. Carter Gazley, on behalf of the "Cincinnati Lumber Company," presented the Red Stocking Base Rall Club, on Friday evening, with a champion bat, as a testimonial to their grand tour. This bat is rather gigantie in dimensions, being of sell, and is 77 feet long. 10 meles in diameter at the butt, and 94 at the wrist. It is very symmetrical in its preportions, and weighs over 1,600 points. It is lettered with the names of the first rane and the two substitutes. He told the paster, among other things, that he had been engaged in booting on the Ohio and Mississippi rivers. His conduct since taking to food appears much more rational than when on his self-imposed course of surviving. Congress, at its last session, appropriated

\$25,000 for the improvement of Michigan City harbor, Inchana, and the work is now nearly completed. The diffi-nulty feared frem accumulation of sand in the creek and lake is not so serious as was anticipated, so that it is now demonstrated that this may be kept as easily and safely for har-bor purposes as any other point on Lake Michigan. The importance of this work to Northern Indiana can scarcely be overestimated, furnishing, as it must, equal facilities with Chicago for the shipment of grain and coal, and the reception of pine lumber and Lake Superior iron ore. diana, and the work is now nearly completed. California is rejoicing over the introduction of the "elevating" business in that State, the first elevafor having been put in operation at Vallejo on the 23d vator having been put in operation at vaning on the 224 mit. The Company proposes to preceive grain in bulk, and thus secure to the fariner a saving of the cost of sacks and filling—say \$2.40 per tim. The total charge to the farmer for receiving, handling, weighing, and loading the grain on board of foreign-bound vessels will be 70 cents per tim, including storage for one month or fraction thereof. It is maintained by the Company that this is a saving to the producer of \$3.30-100 per tim as against the present method of shipping at this city, and also a saving of sacks.

For many months past a poor woman, meanly clad, has been sitting every day at the corner of Blum and Longworth-sts., Cincinnati. Her husband died in the army. She would never believe that he was dead, the army. She would never believe that he was dead, and was firm in the faith that he would return to her. Constant brooding begat derangement. An imposter told her that if she would take her stand at one of the street corners every day her absent lord would soon come back to her. She did so, and every morning the patient watcher was found at her post, waiting wearily, despite wind and weather. Last week she was missed from her accustomed place, and on inquiry it was found that she had been removed to the Long View Asylum.

Prof. Butler of Madison, Wis., in his lecture-"Gems from Three Continents," never fails to bring down the house where he describes Americans abroad. One sentence is this: "The ocean with its heave-offerings to Neptune is such a king of terrors that Yankees shrink from crossing it for the first time; but no sooner are they ushered into the Oid World then they long to linger there longer than they had intended—and do so, if their purses and family will let them; so they may be fairly compared to a certain calf whose ears must be pulled off before he would begin sucking,—and then his tail must be pulled off before he would stop."

The Columbus, Ohio, papers report the killing of an immense snake on the Chittenden farm, near that city, last week. The monster had been seen on several occasions, and on Monday it chased two boys several occasions, and on Monday it chased two boys nearly half a mile. On Thursday morning the same two boys again visited the Chittenden farm, better prepared to encounter the fee should he put in an appearance. They had not been on the grounds a great while before they discovered the monster, who was approaching them with evident warlike intent. The boys took position, and so soon as an opportunity presented, made such well directed shots as to place their enemy entirely in their power, when they soon dispatched him. The monster measured 16 feet in length, and was proportionately large.

The ice factory at New-Orleans is a great success. It consists of six retorts of a chemical freezing mixture. From these six retorts six pipes descend to six huge chests, which chests in turn radiate severally on into four compartments. In each compartment are long,
thin tin cases, seven on one side and eight on the other.
This making by all the rules of arithmetic a total of fiftysix cases in a box, and there being four boxes to a chest,
and six chests to a factory, it follows that, at full blast,
this Southern ice factory can turn out 1,34 cakes of ice
eighteen inches long, twelve broad, and two thick, at the
completion of each process. The ice is much colder than
that frozen naturally, and lasts much longer. The factory huge chests, which chests in turn radiate severally off in that frozen naturally, and insts much longer. The factory is a joint stock enterprise, and the property is exceed-

Last Tuesday night, a gang of boys went to FOld Gid Mead's" house, near the burying ground, in Glens Falls, N. Y., demanded an entrance, and swore they would break in the door if it was not opened. They they would break in the doer if it was not opened. They supposed that some disreputable girls were stopping there, and wished to find them. Mrs. Mead told them there was no one in the house but herself and little grand-daughter. The boys continued to throw large stones against the house and door until they so frightened Mrs. Mead, a woman 69 years old, that she died between 2 and 3 o'clock in the morning. An inquest was held and a verdict found against the boys. Sheriff Hicks and Officer Allen arrested the accused, and they were arraigned on Wednesday evening for examination. The investigation was continued until the next day, when a further examination was waived.

The Central Pacific Railway Company has begun the construction of 60 cars for transporting fruit from California to the East. These cars are ventilated by means of funnel air-pump ventilators, wire screens and cross-bars, and will admit of stowing fruit packages in such a way as to give a free circulation of air. No other arrangement to insure coolness will probably be required, unless zinc lining may sometimes be used, for the climate itself, after reaching Utah is cooler than that of California, and therough ventilation will be sufficient. The rate for all first-class fares is \$12.52, in gold, for 100 pounds, from San Francisco or Sacramento to New-York, At this rate it is believed grapes can be placed in New-York by growers at about \$15 per 100 pounds. They could then be sold at 25 to 80 cents, according to quality, and yield a good profit. Several other fruits—and especially pears—can be placed in New-York at about the same price.

A great excitement was created in Louisville on the 30th ult., by the aunouncement that five barrels containing five human bodies, had been found in the river four miles above the city. Coroner Moore with a party of gentlemen with which to form a jury, proceeded party of gentlemen with which to form a jury, proceeded to the place where the discovery had been made, and on examining the contents of the barrels, which had been dragged on shore, the human hodies were found. Some of them had their feet cut off, some were minus arms, hands, &c.; others had no heads, and all of the five bedies were more or less mutiliated. A brief investigation divulged the fact, beyond any dispute, that the remains had been subjects for the dissecting table of some one of 1 je medical colleges. A negro was seen to drive an expressivation to the same spot early yesterday morning, and under the horizer's containing the hodies into the river, but from which college the remains came is not known.

from which college the remains came is not known Quite a commotion was produced in Janesville, Mich., a few evenings ago, by the quiet visit of the Ladies' Phalanx at the billiard saloons. A secret society of about 100, comprising most of the leading respectable women of the village, has been silently formed during the past Spring, without the knowledge of the other sex for the purpose of taking measures to resist the evil influences of lignor and gambling saloons. The village has ten piaces where intoxicating drinks are sold. The two priocipal gambling saloons in the main street are furnished in the most elegant and attractive style, with ampie room for iders and houngers—a billiard-room in front, and a copions har at the side, with private cardrooms in the rear. On the night in question, these ladies is the half where they had been attending a temperance

ecture, and ellently marched to and entered one of the billiard saloons. One of the two laddes appointed to speak quietly addressed the keeper. Some exciting incidents took place on the entrance of the phalanx at the card-room of the second saloon. Gentlemen, busy at play, suddenly espying the approach of their wives, quietly closed the door. Some leaped from a side window; others made flight at a back door, while the ladies took the game.

A company of Chinese athletes astonished the people of San Francisco, recently, with an exhibition of their agility. About 15 of them appeared on the stage amid the din and clangor of gengs and kettle-drums. They first fought a sham battle with swords, cleavers' pole-axes, lances, and short knives. The fencing was very apid, and each fighter was an expert. Still one warrior tood against a lost. He disarmed his antagonists as fast is they came; hurled them about the stage; stabled hem, hewed them with broad axes, hacked them with as they came; hurled them about the stage; stabled them, with swords, butted them with broad axes, hacked them with swords, butted them with his head, kieked them in the breast with both feet at once, and yet found time to execute hand-springs and vaulting somersuits among them, as he fought. At last he vanquished. All his foes and the half-naked rasseals took to flight. He pursued. Some rough tables were ranged along the front of the stage to represent hedges, rocks, logs and banks, which must obstruct pursued and pursuer alike. The runners vaulted the tables, turning lofty summersaults over each, and landing indifferently on their feet, hands, heads or backs, as the case might be, and that too on a hard stage, covered only with a lew strips of matting. The victorious fighter, a splendid acrobat, was always after them. Soveral times one of his foes would turn and face him, when he would bound high in the air, and plunging down, plant both feet in the breast of his adversary with such force as to send him headlong across the stage. The Alla says that if ever a troupe of these sturdy and well-trained athletes were put to a fair test of physical activity and strength, they could handle a regiment of the lazy, lank-limbed, whisky-sodden ruffigns and cowards who make a pastime of stoning, beating and throwing about Chinamea in the public streets of this city.

THE NORTH-EASTERN SAENGERBUND.

STABBING AFFRAY IN NEWARK.

A serious stabbing affray occurred at about A serious stabbing affray occurred at about 1 o'clock on Sunday morning in front of a salcon kept by James Martin. In Belleville-ave., Newark. John Kenth and James Masce, habitues of the salcon, had spent the evening up to midnight in playing cards, and finally disagreed, and engaged in a fight in the salcon. They were put out, and continued their battle on the sidewalk. In the course of the melec Keith drew a knife and cut at hazard upon his antigonist, producing three wounds, one in the breast, one upon the right arm, and another in the abdomen. Mages sustained his injuries for some time, and disarmed his assailant. He soon afterward fainted from loss of blood, and was carried to his house at No. 6 Hanover-place. Keith escaped, and, although an officer was sent to his house to watch for his return and arrest him, he did not appear and has not been arrested.

BROOKLYN BOARD OF EDUCATION. The monthly meeting of the Brooklyn Board of Education will be held to-morrow afternoon, at which the question of reorganization will be brought up in order to afford an opportunity to the 15 new members to participate in the election of officers. The new and some of the old members of the Board met in consultation at the Assessor's office in the City Hall on Friday night, and discussed the subject at length. Twenty-one members were present, and the Hon. Denns Barnes was elected Chairman. The programme agreed upon is understood to be as follows: A resolution asking for a reorganization of the Board was adopted. This will be signed as numerously as possible, and presented at the outset, immediately after the reading of the minutes, as a communication. The next point discussed was that of the Chairmanship. A motion was made that John W. Hunter be elected to the position. It was observed by one of the members that if this plan proved successful it would be a guaranty to the old members that no revolutionary changes were contemplated, and as satisfactory to the new members as it was fair to suppose it would be to the old. Mr. Hunter was unanimously nominated for the position. It was afterward decided that no changes should be made among the salaried officers. It was also unanimously decided to support Daniel Northup for Vice-President, after which the caucus separated. the question of reorganization will be brought up in order

A CHAMPION'S LOVE-TOM ALLEN IS MARRIED, A CHAMPION'S LOVE—TOM ALLEN IS MARRIED,

Tom Allen, the champion pugilist of the
United States, was to have made his appearance in this
city yesterday, having reached Vincennes on his way
here from St. Louis. He did not come here, however. He
returned to St. Louis instead, is response to a telegram.
It is probable that by the time this reaches our readers
Mr. Allen will have surrendered the belt, beaten in one
round by a young woman, his early love, who ran away
from home to share his honors. When Allen came to this
country, two years since, she attempted to come out
with him, but was prevented by her parents. Not long
since, however, her family came over and settled in NewYork State. The young lady immediately commenced a
correspondence with Allen, which was kept up until his
recent fight with McCoole. That fight settled the business, not only with Mike, but with the English girl. She
could no longer resist the pleadings of her old lover, now
suddenly become famous the country over. So she left
her parents and home between two days, met Tom at
Vincennes, and proceeded with him to St. Louis, in search
of a church and a minister of the gospel. Tom is a winner. (Cincinnati Commercial, June 27.

THE ALASKA SEALS.

A curious instance of legislative blundering appears in the act to extend the laws of the United States over the territory ceded to the United States by Russia, approved July 27, 1868. The sixth section of that law provides that it "shall be unlawful for any person or persons to kill any otter, mink, martin, sable, or far seal, or other fur-bearing animal, within the limits of said territory, or in the waters thereof, and any person guilty thereof shall, for each offense, on couviction, be fined in any saum not less than \$200 nor more than \$1,000, or Imprisoned not more than six months, or both, at discretion of the Court; and all vessels, their tackle, apparel, furniture, and cargo, found engaged in violation of this act shall be forfeited," cic. That is to say, the killing of seals in the limits of the lare Russian-American possessions is strictly prohibited, and any person who shall be convicted of such killing shall be fined or imprisoned, as provided, or both, and any vessel which shall, in deflance of all known rules of commerce and common sense, leaves its "native element," as it is called, and take to dry land and slay these fur-bearing animals, shall be forfeited with all its tackle, furniture, and so on. Now, when a man attempts to smuggle goods into any port without paying duty, the goods are forfeited, and the vessel engaged in carrying the goods is also liable to the same penalty. But here is a case where the vessel is only liable to condemnation when it has been convicted of the act of killing fur-bearing animals, while there is no provision whatever for the seizure or condemnation of the skins so illegally procured. Steam rams might be employed to run down the innocent fur-seals, but no vessels now in use in these waters will ever be forfeited for killing these animals. It is plain, however, that killing the habit of killing the animals and bringing the skins into the posts where they are bought by agents. HAVE PEACEABLE COLORED CITIZENS ANY RIGHTS IN BALTIMORE!

About 104 o'clock last night a company of colored cavalrymen, about 30 strong, headed by a full drum corps and fifes, left the Boughass Institute, on Lexington-st., and passed through Calvert-st. to Fayette, and thence east. The men were all in full uniform and carried cavalry swords. As they passed down Fayette-st. to the tune of "Not for Joe," quite acrowd collected, and, on reaching the intersection of Fayette and 6ay-sta. Police Commissioners Jarrett and Fusselbangh, accumpanied by a squad of police, appeared in front, and Mr. Jarrett called a halt. He then told the men that, as President of the Police Board, he ordered them back to their quarters. The Captain and some of the men at first demurred, contending that Police Marshal Farlow had given permission for the parade, and had promised the protection of the police; but the Commissioner was firm in his demand, in a few words decilining to give the Captain had suthority for acting as he did, and a countermarch was ordered, the musicians dispersing and the men going back to the place whouse they came, accompanied by the police. When the Commissioners gave the order to halt they were applanded by the persons who lined the sidewalks.

With a cool, comfortable day, and a good demand, nearly all the stock was sold, morely early in the morning, to allow both buyer and schetche attend patriotic-demonstrations, &c. So many cattle, closing up the week with a holiday, would seem to overstock the market, but the great demand from out-of-town butchers, with a beavy call upon our own butchers by the numer-ous steamers and excursion boats, all of which expect to feed numerous burgery multilides, induced butchers to ous steamers and excursion boats, all of which expect to feed numerous hungry multitudes, induced butchers to stock up heavily with beef. The feeling is quite strong, but so many dispatches have gone forth to this effect that it is more than probable we shall have to report a weakness, if not a positive decline, before the close of the week. Stock now arriving in Hudson Co., N. J. (which embraces both Communipaw and West End), is inspected upon arrival, and the inspector announces his charges at 6c, per head for cattle, 8c, for hogs, and 2c, for sheep, to be collected from owners. There is a disposition on the part of stock men to resist and test the validity, or constitutionality of the act.

WILCH COWS are still very dull of sale, and are not

ewt, at 154c.

MILCH COWS are still very dull of sale, and are not improving in price. The extremes of the past week have been \$400.2510, though few have gone outside of \$600.2555.

VEAL CALVES—These are doing well to-day, the weather being fine, and not a large number in, though the total for the week is very large. They are unchanged in price, save that really fine veals will bring a little more money, or 112114c.

Kase, Hauver & Co, sold 131 grass calves, at Hudson City, which averaged \$5.27 each; Judd & Co., 112 at \$7.02, while McGraw & Co, sold 43 at Fortieth-st. at \$16.01 per head, being mostly fat milk calves.

SHEEP AND LAMBS—Arrivals are lighter, and they need to be, so as to give holders an opportunity to work off lots which have been held for days and almost weeks. They begin to see daylight, or at least, fewer sheep in the pens, but cannot yet report any marked improvement in prices, those good enough to weigh going at 420 fec, with culls at 2235 each, and Lambs at 7211c. There is a better feeling on lambs. Arrivals to-day, 2,663, nearly all sheep.
